

Dear Parents

Holidays are always a welcome break from the normal routine and all of us look forward to them. They give us an opportunity to pursue all the activities that we enjoy but never found enough time to indulge in. When used appropriately, homework can reinforce what has been taught, contribute to the development of children, cultivate a healthy disposition towards learning and most importantly, maintain a continuation with the process of education that began at the Learning Center.

The holiday homework for Class III has been especially designed to strengthen the concepts taken up in ongoing themes. It will also ensure your maximum participation in your child's development plan. Care has been taken to plan activities that would help to build senses, enrich vocabulary. Enhance creativity and thinking skills. We have tasks that encourage the spirit of scientific enquiry and foster awareness about nature. Make sure that you click photographs of your child while doing all these activities with him/her. Create a collage of all the clicked pictures in scrapbook and send it to us so that we can celebrate his/her accomplishments when the school reopens.

We wish you a very happy and fruitful family time during this vacation and hope you have fun sharing the homework with your child.

Best regards

Magic Square

Given below is a **magic square**. It has 3 rows and 3 columns. If you add the numbers in the small squares, vertically, horizontally and diagonally, you get the same sum called the **magic number**. In this magic square, the magic number is **15**.

Diagonally
 $8 + 5 + 2 = 15$

4	3	8
9	5	1
2	7	6

Horizontally

$4 + 3 + 8 = 15$

$9 + 5 + 1 = 15$

$2 + 7 + 6 = 15$

Diagonally

$4 + 5 + 6 = 15$

Vertically

4	3	8
9	5	1
$\frac{+2}{15}$	$\frac{+7}{15}$	$\frac{+6}{15}$

Try it Yourself.

Fill the numbers in the blank boxes to complete the magic squares.
